Toft Hill Primary School

Year 3 Maths LTP

Autumn Term	Spring Term	Summer Term
Number: Place Value - Count from 0 in multiples of 4, 8, 50 and 100. - Find 10 or 100 more or less than a given number. - Recognise the place value of each digit in a three-digit number (hundreds, tens, ones). - Compare and order numbers up to 1000. - Identify, represent and estimate	Number: Multiplication & Division Recall and use multiplication and division facts for the 3, 4 and 8 multiplication tables. Write and calculate mathematical statements for multiplication and division using the multiplication tables that they know, including for two-digit numbers times one-digit numbers, using mental and progressing to formal written	 Number: Fractions Recognise and show, using diagrams, equivalent fractions with small denominators. Add and subtract fractions with the same denominator within one whole [for example, 5/7 + 1/7 = 6/7]. Compare and order unit fractions, and fractions with the same denominators. Solve problems that involve all of the
numbers using different representations. Read and write numbers up to 1000 in numerals and in words. Solve number problems and practical problems involving these ideas. Number: Addition & Subtraction	 methods. Solve problems, including missing number problems, involving multiplication and division, including positive integer scaling problems and correspondence problems in which n objects are connected to m objects. 	above. Measurement: Time - Tell and write the time from an analogue clock, including using Roman numerals from I to XII, and 12-hour and 24-hour clocks.
 Add and subtract numbers mentally, including: a three-digit number and ones; a three-digit number and tens; a three-digit number and hundreds. Add and subtract numbers with up to three digits, using formal written methods of columnar addition and subtraction. Estimate the answer to a calculation and use inverse operations to check answers. 	Measurement: Money - Add and subtract amounts of money to give change, using both £ and p in practical contexts. Statistics - Interpret and present data using bar charts, pictograms and tables. - Solve one-step and two-step questions	 Estimate and read time with increasing accuracy to the nearest minute. Record and compare time in terms of seconds, minutes and hours. Use vocabulary such as o'clock, a.m./p.m., morning, afternoon, noon and midnight. Know the number of seconds in a minute and the number of days in each month, year and leap year.

 Solve problems, including missing number problems, using number facts, place value, and more complex addition and subtraction.

Number: Multiplication & Division

- Count from 0 in multiples of 4, 8, 50 and 100.
- Recall and use multiplication and division facts for the 3, 4 and 8 multiplication tables.
- Write and calculate mathematical statements for multiplication and division using the multiplication tables that they know, including for two-digit numbers times one-digit numbers, using mental and progressing to formal written methods.
- Solve problems, including missing number problems, involving multiplication and division, including positive integer scaling problems and correspondence problems in which n objects are connected to m objects.

Consolidation & Assessment

[for example, 'How many more?' and 'How many fewer?'] using information presented in scaled bar charts and pictograms and tables.

Measurement: Length & Perimeter

- Measure, compare, add and subtract: lengths (m/cm/mm); mass (kg/g); volume/capacity (I/mI).
- Measure the perimeter of simple 2-D shapes.

Number: Fractions

- Count up and down in tenths; recognise that tenths arise from dividing an object into 10 equal parts and in dividing onedigit numbers or quantities by 10.
- Recognise, find and write fractions of a discrete set of objects: unit fractions and non-unit fractions with small denominators.
- Recognise and use fractions as numbers: unit fractions and non-unit fractions with small denominators.
- Solve problems that involve all of the above.

Consolidation & Assessment

 Compare durations of events [for example to calculate the time taken by particular events or tasks].

Geometry: Properties of Shapes

- Draw 2-D shapes and make 3-D shapes using modelling materials.
- Recognise 3-D shapes in different orientations and describe them.
- Recognise angles as a property of shape or a description of a turn.
- Identify right angles, recognise that two right angles make a half-turn, three make three quarters of a turn and four a complete turn; identify whether angles are greater than or less than a right angle.
- Identify horizontal and vertical lines and pairs of perpendicular and parallel lines.

Measurement: Mass & Capacity

 Measure, compare, add and subtract: lengths (m/cm/mm); mass (kg/g); volume/capacity (l/ml).

Consolidation & Assessment

Year 3: Maths Mastery Vocabulary

Number & Place Value	Addition & Subtraction	Multiplication & Division	Fractions
Square numbers	Difference	Divisibility rules	Unit fraction
Equivalent expression	Associative law	Multiplicand	Non-unit fraction
Place holder	Addend	Multiplier	Congruent
Consecutive	Sum	Product	Numerator
Cardinal numbers	Total	Factor	Denominator
Cardinality	Aggregation	Dividend	Vinculum
Ordinal numbers	Augmentation	Divisor	
Subitising	Reduction	Quotient	
Unitising	Minuend	Distributive law	
Partitioning	Subtrahend	Commutative law	
Decomposing	Commutative law	Array	
	Near double	Inverse operations	
	Inverse operations	Divisible	
		Multiple	
I			

All new maths mastery vocabulary is indicated in bold.
